Youns's Task Roadmap: Cycle Weeks 5 to 8

Structured Roadmap & Deliverables (Updated Simplified Layouts)

📢 ROLE OVERVIEW & SIMPLIFIED LAYOUT RULES

You are responsible for the 2D visual identity and game assets (Game Thumbnail, Event Thumbnail, and Currency Icon) for both **Shared Anime** events and **RTTO (Original)** updates.

Simplified Design Rules:

- 🚫 **NO EGGS OR BLOCKS:** Thumbnail layouts must **NOT** contain 3D Egg models or 3D Block models anymore. Ignore them in composition plans.
- 🧍 **SIDE-BY-SIDE LAYOUT:** Thumbnails should simply display the spotlight characters (for Shared Anime) or the weekly pets (for RTTO) standing side-by-side next to each other.
- 🤖 **ROBLOX FORM & INTERNET REFERENCES:** The spotlight characters must be in **Roblox form** (as requested by Zach). You do **NOT** need the "VIRUS" reference file; you can instruct your AI image generators to make the characters based on their names/info available on the internet.
- 🐬 **RTTO PETS DEPENDENCY:** RTTO is the only game with unique weekly pets. Coordinate with **Zero** to get the 4 weekly 3D pet models and compose them side-by-side.
- 🪙 **CURRENCY ICON (CURI):** Stands alone as a 2D themed asset, independent of 3D models.

🤝 WORKFLOW SUGGESTION & SYNC

1. **For Shared Anime updates:**
    - Look up character details on the internet (no "VIRUS" reference file needed).
    - Generate/render characters in **Roblox form** using an AI image generator or 2D image tools.
    - Compose the characters side-by-side standing next to each other (fully exclude Sage/Z/Gum Gum/Ego Egg & Block models from layouts).
2. **For RTTO Original updates:**
    - Coordinate with **Zero** to receive the 4 weekly 3D pet models (the Egg model is obsolete/ignored).
    - Render and compose the 4 pets standing side-by-side.
3. **For Currency Icons:**
    - Design a themed 2D secondary currency icon matching the update theme (independent of 3D models).
