Youns's Complete Task Roadmap (Weeks 5 to 15)

Master Plan: 66 Deliverables & Spotlight Roster References (Updated Simplified Layouts)

📢 ROLE OVERVIEW & NEW SIMPLIFIED DESIGN RULES

You are responsible for the 2D visual identity and game assets (Game Thumbnail, Event Thumbnail, and Currency Icon) for both **Shared Anime** events and **RTTO (Original)** updates from Week 5 to Week 15 (66 tasks total).

Core Composition Rules:

- 🚫 **NO EGGS OR BLOCKS:** Thumbnail layouts must **NOT** contain 3D Egg models or 3D Block models anymore.
- 🧍 **SIDE-BY-SIDE LAYOUT:** Thumbnails simply feature the spotlight characters (for Anime) or the weekly pets (for RTTO) standing next to each other.
- 🤖 **ROBLOX FORM & INTERNET REFERENCES:** The characters must be in **Roblox form**. You do **NOT** need the "VIRUS" reference file; generate characters using AI tools based on their online information.
- 🪙 **CURRENCY ICON (CURI):** Designed as a 2D themed asset, independent of 3D models.

🤝 WORKFLOW SUGGESTION & SYNC

1. **For Shared Anime updates:**
    - Look up character details on the internet (no "VIRUS" reference file needed).
    - Generate/render characters in **Roblox form** using an AI image generator.
    - Compose the characters side-by-side (fully exclude Egg & Block models from layouts).
2. **For RTTO Original updates:**
    - Coordinate with **Zero** to receive the 4 weekly 3D pet models (the Egg model is obsolete/ignored).
    - Render and compose the 4 pets standing side-by-side.
3. **For Currency Icons:**
    - Design a themed 2D secondary currency icon matching the update theme (independent of 3D models).
